

Unlock the Full Power of Data-Driven Performance

Transform Your Manufacturing Operations

Struggling with inefficiencies, limited visibility, and shrinking margins?

The OpEX Betterment Program helps manufacturers take control by delivering real-time insights, expert coaching, and actionable data—transforming operations from quote to cash collection.

- ✓ **Built on 35+ Years of Manufacturing Expertise** – Led by Dirk Smith, leveraging six iterations over 15 years to deliver a proven operational improvement system.
- ✓ **Comprehensive KPI Metrics** – A web-based, interactive dashboard that integrates with any ERP or data platform to track lead and lag indicators.
- ✓ **Coaching & Continuous Improvement** – We work alongside your leadership team, helping you understand which levers to pull to optimize performance.
- ✓ **Guaranteed ROI** – We promise measurable savings in Year One that will more than offset the program's cost.

What You Can Expect with OpEX Betterment

➞ Phase 1: Deployment

- **Minimal disruption** — we handle the set up.
- **Full quote-to-cash review** — uncover inefficiencies and data gaps.
- **Custom configuration** — OpEX tool tailored to fit your ERP and data systems.
- **End-user training** — prep your team to navigate and use the insights.

➞ Phase 2: Ongoing Improvement

- **Monthly leadership reviews** — drive accountability for data-driven decisions.
- **Coaching** — help managers target key improvement areas.
- **Regular updates** — new tools and metrics for continuous progress.
- **Support** — dedicated helpdesk for Power BI functionality.
